

Before downloading the mobile app, you must first enter your mobile number in the Web PhoneManager (WPM)

To log in to the Unified Messaging web portal:

1. Log in to the *Web PhoneManager* via <https://webum.uit.yorku.ca>
2. Enter your mailbox (5 digit) extension in the **Username** field
3. Under, **Security Code** enter the same security code you use to log in via telephone
4. Click **Login**

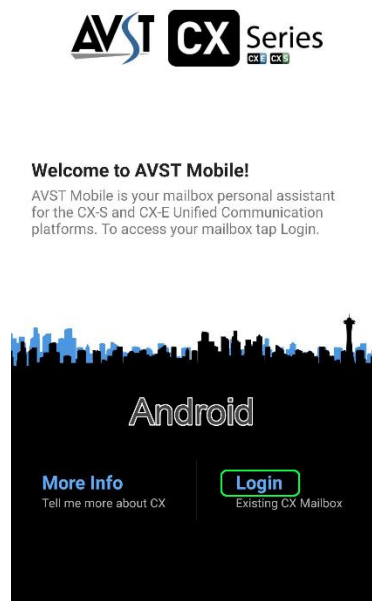

5. From the left-hand menu select **Personal**
6. On the *Personal* window, select the **Phone Numbers** tab
7. Now, enter your mobile number in the **Personal Mobile** field
8. Click **OK**

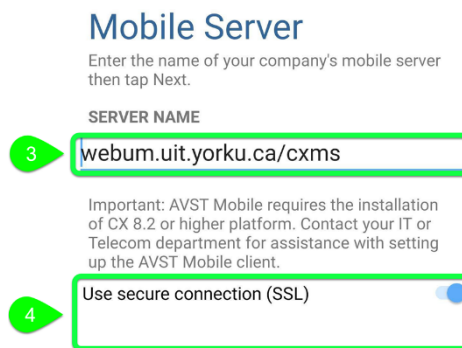

Once your mobile number has been added, you can follow the steps below on your mobile device

To download and configure the AVST (Unified Messaging) mobile app:

1. Using your mobile device, locate, download, and install the **AVST Mobile** app from your device's app store
2. When the app installation is complete, open the app and select **Login**

3. When prompted for a server name, enter **webum.uit.yorku.ca/cxms**
4. Confirm **Use secure connection (SSL)** is enabled, and tap next
